

ARKAMYS

360° audio rendering now available for VR headsets!

March 28, 2017

The realistic virtual **360 sound** experience for VR videos is now possible for **VR OEMs users** thanks to the **ThunderSoft stand-alone VR head-mounted display (HMD) platform** on **Android OS** and **ARKAMYS VR-Play immersive spatial audio software** embedded.

That solution is optimized for the latest **Qualcomm Snapdragon 835**.
